

# Love Begins With Me

By Christie Campa

LA3

*Love is like a chain reaction,  
Part of a loop that never ends.  
It's impossible to find where it stops;  
But there's a definite point where love begins.*

*All the love you see was started  
In another time and place.  
Every smile you see today  
Was started by another smiling face.*

*I think today I'll make it my job.  
Today, love begins with me.*
